5. Letter no. Dy-241-27 dated 28th January 1929 from the Dir- of P.W. Submitting proposals for the extension of the Chamrajpatna drainage.

6. The Director urges the necessity for extending the drainage building at Chamrajpatna and for Construction of quarters both Town staff- the proposals Cost-about Rs. 27,200/as indicated below :-

Rs. 1,068/-	Excess over the present expenditure for entertaining this additional operation and grant of permanent salary to certain official
985	Additional equipment such as purchase of hammers tape &c.
6,000	Extension of the drainage building.
8,400.	Quarters for the Asst. Supdt and 4 Inspectors.
10,000.	Quarters for the Operating Clerks and 2 clerks @ Rs. 1000/- for each
750	For fencing and gates.
27,203	

7. The Director states that the building work may be spread over two or three years and grants a grant of Rs. 15,200/- during the current year presumably for the Construction of quarters for the Staff-

NOTE—Contn. sheet

Serial No.

8 Whether the extension upto drainage building should have precedence over the other works is a point for consideration. Such for orders - H. Secy. has to be consulted. [In this connection G.O. 30.1.29. Sir, kind attention is invited to G.I.D.No. D.50-1 Seri.17-27-2 & 8th Oct. 1927 sanctioning funds for the extension upto Channapatna drainage. It is not known what use was made of this amount.]

O.

Secy of

31.1.29

31/1

9) The most urgent expenditure required this year, and this in my opinion is:

1 drainage building of the same type as the three already provided	Rs 3000
Fencing & gates	750
Addl staff, viz. 1 Supdg & 2 Overseers on Rs 25/-	600
A. S. for purchase of seed cocoons	3000
Addl equipment	985
	8335
Say	Rs 8500

10) Provision of Quarters for staff is undoubtedly necessary, but the expenditure involved

NOTE—Contn. sheet

Serial No.

probably makes immediate action impossible. The scale proposed by the Director is very moderate, and may be accepted. The total cost would be Rs 20,400 - and this might be spread over 4 years, commencing with 1929-30, the requisite provision being made in the budget next year.

11) The proposal to raise the price of 100 hybrid bajri from 1/- to 1/8 maybe approved. The Dir might be asked to consider the question of raising the price of thyme bajri also by 0-2-0 from next year.

12) An addl grant of Rs 8500 might be sd for the urgent items specified by me earlier in the note.

DEPARTMENT OF INDUSTRIES AND COMMERCE:

GEN. 4529 DEVELOPMENT

OFFICE OF THE DIRECTOR,

Dated, Bangalore, 6th Decr-., *192* 8.

- 8 DEC. 1928

FROM

C. RANGANATHA RAO SAHIB, ESQ., B.A., B.L.,
Director of Industries and Commerce in Mysore,
Bangalore (India.)

Veri. 26-28-3

To

N. Rama Rao Esq., B.A., B.L.,

Secretary to the Government of
His Highness the Maharaja of Mysore,

Development Departments - Bangalore.

SIR,

D-1292 sri 26-28-1

In continuation of my letter of the same number dated 9-8-'28 forwarding the returns submitted by the Superintendent of Sericulture regarding the preparation and distribution of disease free layings for the year 1927-28, I have the honour to submit my review of the work of that year as promised in my letter referred to above.

2 The total number of layings prepared during 1927-28 was 6,84,727, of which more than half was prepared at the Channapatna Grainage and the total number distributed to ryots was 6,40,952. The Superintendent reports that the layings were distributed to 334 seed rearers and 3,371 rearers of reeling cocoons in the State.

3 The total expenditure incurred in the production of these layings was Rs.8,339--3--6 of which a sum of Rs.5,102--12--0 represents the charges for the purchase of Cocoons. The cost per hundred layings works out to Rs.1.22 or 1.-3.-6. The sales of layings amounted to Rs.6,231-0-2 and the value of layings used in the Farm and distributed free of cost or on concessional terms in accordance with standing orders is Rs.982-0-1. As the Grainages are given credit for the layings used in the Farms and would have realised the full value of layings if they had not been sold at concessional terms, the total value of the production at the Grainages is therefore Rs.6,231-0-2 plus 982-0-1. i.e. Rs.7,213-0-0. The net cost to Government in the

the preparation and distribution of disease free layings is only Rs.8,339-3-6 minus Rs.7,213-0-3 or Rs.1,126-3-3. In view of the fact that about 6,41,000 layings have been distributed to Sericulturists at such small net cost to Government the work of the Grainage Farms may be considered as satisfactory. It may be mentioned that the cost of the Sericultural staff is not included in these figures.

4 The actual remittance to the Treasury during the year on account of the sale of layings was Rs.5,845-1-5 of which Rs.5,605-7-6 represents the price of layings distributed in 1927-28. The Superintendent reports that a sum of Rs.625-8-8 and of Rs.361-15-7 is outstanding on account of the layings distributed in 1927-28 and 1926-27 respectively. He will be requested to see that the arrears are collected early.

5 It is estimated that out of 6,40,952 layings distributed to sericulturists during 1927-28, the layings distributed to rearers of reeling cocoons should have produced about 2,17,300 lbs. of cocoons and those distributed to rearers of seed cocoons may be considered as having influenced the production of 11,45,000 lbs. of cocoons. Even so the activities of the Department have been responsible directly and indirectly for the production of only 13,62,300 lbs. of cocoons giving an yield of about 85,000 lbs. of raw silk representing roughly about one ninth of the total production of raw silk in the State.

6 The following table gives particulars of the quantity of disease free layings distributed during the last four years:-

Years.	No. of layings distributed.
1924-25	1,47,723.
1925-26	3,42,638.
1926-27	4,51,875.
1927-28	6,40,952

The layings distributed last year were much in excess of these distributed in 1926-27 owing to the very generous sanction accorded by Government for the employment of additional staff.

7 Inspite of the steady increase in the distribution of layings within the last two or three years, the work done covers a very small part of the requirements of the industry and proposals for further expanding the work of the Grainages with as small an increase in net cost as possible are under preparation and will shortly be submitted to Government.

I have the honour to be,

S i r,

Your most obedient servant,

C Ranganatha Rao Sahib

NO. ID. 17692-3—SERI. 26-28-4, DATED 26TH JANUARY, 1929.

Letter No. D4 -241—28-29, dated 8th December 1928, from the Director of Industries and Commerce in Mysore to the Secretary to Government, Development Departments.

In continuation of my letter of the same number dated 9th August 1928, forwarding the returns submitted by the Superintendent of Sericulture regarding the preparation and distribution of disease-free layings for the year 1927-28, I have the honour to submit my review of the work of that year as promised in my letter referred to above.

The total number of layings prepared during 1927-28 was 6,84,727, of which more than half was prepared at the Channapatna Grainage and the total number distributed to raiyats was 6,40,952. The Superintendent reports that the layings were distributed to 334 seed rearers and 3,371 rearers of reeling cocoons in the State.

The total expenditure incurred in the production of these layings was Rs. 8,339-3-6 of which a sum of Rs. 5,102-12-0 represents the charges for the purchase of cocoons. The cost per hundred layings works out to Rs. 1,22 or Rs. 1-3-6. The sales of layings amounted to Rs. 6,231-0-2 and the value of layings used in the Farm and distributed free of cost or on concessional terms in accordance with standing orders is Rs. 982-0-1. As the Grainages are given credit for the layings used in the Farms and would have realised the full value of layings if they had not been sold at concessional terms, the total value of the production at the Grainages is therefore Rs. 6,231-0-2 plus Rs. 982-0-1 *i.e.*, Rs. 7,213-0-3. The net cost to Government in the preparation and distribution of disease-free layings is only Rs. 8,339-3-6 minus Rs. 7,213-0-3 or Rs. 1,126-3-3. In view of the fact that about 6,41,000 layings have been distributed to Sericulturists at such small net cost to Government the work of the Grainage Farms may be considered as satisfactory. It may be mentioned that the cost of the Sericultural staff is not included in these figures.

The actual remittance to the Treasury during the year on account of the sale of layings was Rs. 5,845-1-5 of which Rs. 5,605-7-6 represents the price of layings distributed in 1927-28. The Superintendent reports that a sum of Rs. 625-8-8 and of Rs. 361-15-7 is outstanding on account of the layings distributed in 1927-28 and 1926-27 respectively. He will be requested to see that the arrears are collected early.

It is estimated that out of 6,40,952 layings distributed to sericulturists during 1927-28, the layings distributed to rearers of reeling cocoons should have produced about 2,17,300 lbs. of cocoons and those distributed to rearers of seed cocoons may be considered as having influenced the production of 11,45,000 lbs. of cocoons. Even so the activities of the Department have been responsible directly and indirectly for the production of only 13,62,300 lbs. of cocoons giving an yield of about 85,000 lbs. of raw silk representing roughly about one-ninth of the total production of raw silk in the State.

The following table gives particulars of the quantity of disease-free layings distributed during the last four years:—

Years.	*No. of layings distributed.*
1924-25	1,47,723
1925-26	3,42,638
1926-27	4,51,875
1927-28	6,40,952

The layings distributed last year were much in excess of those distributed in 1926-27 owing to the very generous sanction accorded by Government for the employment of additional staff.

In spite of the steady increase in the distribution of layings within the last two or three years, the work done covers a very small part of the requirements of the industry and proposals for further expanding the work of the Grainages with as small an increase in net cost as possible are under preparation and will shortly be submitted to Government.

OFFICE OF THE DIRECTOR,

Dated, Bangalore, 28th January 1929

FROM

C. RANGANATHA RAO SAHIB, ESQ., B.A., B.L.,
Director of Industries and Commerce in Mysore,
(Bangalore India)

GOVT. & REV. SECRETARIATE
30 JAN 1929
DEVELOPMENT BRANCH

To

N. Rama Rao, Esq., B.A., B.L.,
Secretary to the Government of Mysore,
Development Departments, Bangalore.

Seri 90-28-1

SIR,

In continuation of my letter No. D4-241/27-28 dated the 6th Decr. 1928, I have the honor to submit herewith further proposals for expand-ing the work of the grainages as promised in the last paragraph of that letter. I have already stated in the letter that nearly 52 per cent of the disease free layings disposed of by the Sericultural Department during the year 1927-28 was sold from the Channapatna Grainage. Moreover it is in this grainage that the work relating to the preparation of cross-breed layings has been largely developed. Cross-breed layings are very popular amongst sericulturists in view of the fact that the cocoons produced out of them yield a higher output of silk. It is expected that during the current year i.e., 1929-30, the total distribution of layings from the Channapatna Grainage will amount to about 6,00,000. It is therefore necessary to develop the grainage work in Channapatna to the largest possible extent.

This will necessitate a small increase in the staff and additional building accommodation. The establishment charges on account of the grainage staff at Channapatna at present is Rs 1,776/- per annum. This will have to be increased as shown in the statement appended herewith to Rs 2,844/- providing for two more additional operatives and a slight increase in pay to the other staff to compensate for the increase in work. Some additional equipment will be required the cost of which is estimated at Rs 985/-. It is proposed to raise the price of cross-bred layings from Rs 1/- to Rs 1/8 in view of the larger labour involving in

production and the higher yield of silk obtainable from the cocoons prepared therefrom. The enclosed statement gives an estimate of the probable receipts and expenditure after the grainage has begun to manufacture 10,000 layings per annum. The total expenditure inclusive of the establishment charges incurred on the staff amount to Rs 13,209/- and the probable receipts to Rs 13,250/-. I have no doubt that with the increase in price for cross. breed disease free layings the receipts will more or less balance the expenditure on grainage work at places like Channapatna where the preparation of cross. breed disease free layings is possible in view of the technical efficiency of the staff and the demand already created for them among the Sericultural public.

3 The increase in production to about 10,00,000 of layings will necessitate increased accommodation at the grainage. Two more buildings of the type already erected at Channapatna will be necessary Their estimated cost is Rs 6,000/-. I request that the erection of these buildings may be sanctioned immediately and permission may also be accorded for the additional expenditure on the establishment and the equipment referred to above.

4 The Channapatna Farm is about two miles from Channapatna and it is necessary to take up without further delay the provision of permanent quarters to the staff engaged at the Farm and Grainage here. The staff is now accommodated in # temporary Katcha buildings built over ten years ago. As every traveller xxxon the Mysore Road will have observed, the Katcha buildings are in a dilapidated condition and most unsightly to view. They afford a harbour to snakes and reptiles and are a perpetual source of danger to the unfortunate staff who have been forced to live in them all these years. It is necessary that this building should be demolished and pucca building for the staff erected without further delay. The quarters may be constructed on the lines designed for the accommodation of Electrical Operators at Bowringpet, Kolar and Channapatna. The quarters for the superior staff may be constructed on the model of the building erected by the Electrical Department for for their

their Operators at Channapatna and the Operatives may be housed in buildings more or less on the model of the cement houses built at Mysore. The buildings put up by the Electrical Department for ~~tjm~~ their operators consist of a double block costing Rs 2,800/- in -- which two Inspectors can be provided. As there are four inspectors in Channapatna, two such buildings will be required. The Assistant Superintendent ~~may~~ of the Farm may be housed in one such block built at an estimated cost of Rs 2,800/-. The total cost of the buildings for the superior staff will then amount to Rs 2,800 x 3 or Rs 8,400/-. There are ten Operatives and two Clerks at Channapatna ~~who~~ may be housed in buildings estimatedto cost Rs 1,000/- each. The total cost of the buildings will then amount to Rs 20,400/-. It will not be necessary to sanction the entire amount required in one year as this work may be taken up in two or three years. The Farm requires proper fencing and gates at a cost of Rs 750/-. If Government can sanction Rs 15,200/- during the current year, it will be possible to build the accommodation required for the extended grainages at -- Rs 6,000/-, the quarters for the Assistant Superintendent and four Inspectors at a cost of Rs 8,400/- and also put up fencing and gates at a cost of Rs 650/-. I request that Government may be pleased to sanction the sum of Rs 15,200/- early.

5 The question of developing the grainage work in the Channapatna Farm and providing increased accommodation, equipment and staff was considered at the Dewan's Meeting held on the 24th instant and it was decided that the work should be proceeded with as soon as possible in order that the appearance of the Farm ~~should~~ may be improved before the Simon Commission pass along the Mysore Road in March next.

6 I request early orders of Government on the proposals contained in this letter.

I have the honor to be,
Sir,
Your most obedient servant,
C Ranganatha Rao Sahib
Director.

Read -

Letter No.D.241-27 dated 28th January 1929 from the Director of I & C submitting proposals for the extension of the Grainage at Channapatna.

Order No.D. D: 8767-68

Dated, Bangalore, 25/2/1929

Fair signed by Mr. C. Narouka.

The Director of Industries and Commerce reports that in spite of the steady increase in the output of disease free layings during the past two or three years, the seed produced in the grainages meets ~~x~~ but a small part of the requirements of the silk worm rearers and that in the interests of the industry as a whole, it is essential to develop and expand this part of the activities of the Sericultural Department. He proposes to make a beginning by developing the -- grainage attached to the Channapatna Farm so as to secure an immediate increase of ~~capacity for~~ production of disease free seed from 6 lakhs to 10 lakhs of layings a year.

2 The proposals, which are comprehensive, include the construction of additional rearing rooms, and quarters

p.t.o.

for staff as well as provision of funds for additional staff, equipment, and seed cocoons and involve a total expenditure of Rs.33,609.

3 Govt. agree with the Director that the provision of quarters for the staff is necessary; but the expenditure involved viz., Rs.20,400, as detailed in the margin, makes immediate action impossible. Govt. are however pleased to sanction the proposal generally and direct that the ~~amount~~ cost may be spread over 4 years commencing from 1929-30. A provision of Rs.5,100 will be made in the next year's budget for this purpose.

Rs.8400/- Quarters for 4 Inspectors and the Asst. Supdt.
"12000/- Quarters for ~~the~~ ten operatives and 2 clerks at an estimated cost of Rs.1000/- for each building.

Govt. are pleased to approve, generally, ~~of~~ the proposals intended to increase the capacity of the grainages, but are of opinion that one more building at a cost of Rs.3000/- would suffice for the present, and that it is unnecessary to sanction special allowances to the ~~s~~ staff for doing work which is really one of the essential duties for which they are employed.

4 They are therefore, pleased to accord sanction to the following items of expenditure;

(i)	Grainage building of the same type as the three already provided	Rs.3,000
(ii)	Lumpsum for purchase of cocoons	" 3,000
(iii)	Additional equipment such as tin rings, rearing stands crushing sets etc.,	985
(iv)	Fencing and gates for the Farm	750
(v)	Additional staff of two operatives on Rs.25 each p.m.	150 (for 3 months March to May '29).
		7,885

or nearly Rs.8,000/-,

and direct that a demand for this amount

~~will~~ be ~~pleased~~ placed before the L.C. at its next Sessions. The additional staff will be temporary for the present.

5 Govt. are further pleased to approve the proposal of the Director to raise the price of 100 hybrid layings from Re.1/- to Rs.1-8-0 and they ~~are~~ trust that the bulk of the extra expenditure to be incurred will be covered by fresh receipts as anticipated by the Director. He is requested to consider the question of raising the price of Mysore layings also by 0-2-0 from next year.

6 Necessary provision for the additional staff sanctioned in this Govt. Order should be made in the next year's budgets.

GOVERNMENT OF MYSORE.

DEPARTMENT OF INDUSTRIES AND COMMERCE.

OFFICE OF THE DIRECTOR,

Dated, Bangalore, 5th March 1929.

7620

FROM

C. RANGANATHA RAO SAHIB, ESQ., B.A., B.L.,
Director of Industries and Commerce in Mysore,
(Bangalore, India.)

Seri. 26-28-7

To

N. RAMA RAO, ESQ., B.A., B.L.,

Secretary to the Government of Mysore,
Development Departments, Bangalore.

SIR,

Subject: Expansion of Work at Channapatna Grainage.

With reference to G.O. No. D8767-68/Seri 26-28-6 dated the 25th February 1929 sanctioning the extension of the Grainage at Channapatna, I have the honour to state that the increase in pay to the Inspector recommended in my letter No. D4-241/27-28 dated the 28th January 1929 has not been sanctioned. I think it very necessary that the present Inspector of the Channapatna Grainage should be given encouragement in view of the hard work expected of him when the extension scheme comes into operation. His present pay is only Rs.35 per month. If he should be transferred to the General cadre of 2nd Class Sericultural Inspectors in the Department he would, in the ordinary course of things get a grade pay of Rs.35-2-45: and I think it would be unreasonable to impose on him heavy responsibilities without adequate remuneration. I therefore recommend that a duty allowance of Rs.10 per month may be kindly be sanctioned to him for the period he remains in charge of grainage work at Channapatna.

The cost on this account in 1929-30 which amounts to Rs.120 only will be included in the Budget Estimates of the Sericultural Department for 1929-30 in anticipation of sanction.

I have the honour to be,
Sir,
Your most obedient servant,
C Ranganatha Rao Sahib
Director.
